# Household Hazardous & Electronic Waste

COLLECTION SCHEDULE  
**2013**

## REDUCING THE IMPACT OF TOXIC HOUSEHOLD PRODUCTS IS AS EASY AS...

- 1 When you purchase products... Consider non-toxic alternatives.
- 2 If you have toxic household products in your home now... Use them all up.
- 3 If you still have toxic products that need to be disposed of... Take them to the Household Hazardous & Electronic Waste Depot.

## WHAT IS THE HARM OF HAZARDOUS AND ELECTRONIC WASTE GOING TO LANDFILL?

Hazardous & electronic wastes contain harmful chemicals and toxic heavy metals. In a landfill, these toxic materials will leach into the soil and waterways contaminating our drinking water and the environments where we live and play.

When you responsibly dispose of your hazardous & electronic waste you're saving money, protecting the local environment and ultimately being a good neighbour.

## HOW DO I KNOW IT'S HAZARDOUS?

Products found in the household that have hazardous characteristics may display one of these four symbols identifying the hazard.

### POISON

A product with this symbol may cause injury, illness or death if ingested.

### FLAMMABLE

The product or its fumes will catch fire easily if it is near heat, flame or spark.

### EXPLOSIVE

The container can explode if heated or punctured.

### CORROSIVE

This product can eat or wear away many different types of material, including skin.

**No symbol?** Look for words like "wear gloves" and "fumes may be harmful"

**QUINTE WASTE SOLUTIONS**

operated by the Centre & South Hastings Waste Services Board

## WHAT MATERIALS DO YOU HAVE?

### Bathroom

- aftershave, perfume

**Audio-Visual:** Televisions, music players, speakers, amplifiers, video players - VHS, Beta, CD, DVD,

**Other:** phones, modems, pagers, digital cameras, fax machines, radios, speakers, amplifiers, receivers, video recorders, ink cartridges and more...

## WITH SO MANY COLLECTORS, WHERE SHOULD I TAKE MY ELECTRONIC WASTE?

Quinte Waste Solutions is an approved collector under Ontario Electronic Stewardship, an organization that ensures electronics are dismantled and processed right here in Ontario, under Ontario law and safety standards.

Some collectors ship electronic waste to countries with little or no safety standards, putting their workers and the environment at risk.

## NOT ACCEPTED:

- |                                |   |
