Mike Acerra, spokesperson for Q-Claims presented an update to Council on the Bridgewater Mine operations, including correspondence and recommendations from the Ministry of the Environment pertaining to water sampling and monitoring, noise and traffic. Mr. Acerra detailed the MOE recommendations and noted that, without pre-emptive legislation, the Ministry takes a reactive position on matters. He noted that if the mine operations were regulated under the Aggregate Resources Act, the proponents would be required to undertake studies prior to operations commencing. Mr. Acerra indicated that the Ministry has suggested that the Municipality is empowered to act on behalf of taxpayers, and requested Council's action on a traffic study, warning lights and signage, and noise guidelines. Mr. Acerra also questioned the status of a liaison committee, questioned at a previous meeting between Council and Q-Claims. Reeve Albert advised that Council would discuss this matter at an upcoming Committee of the Whole meeting.
